ABOUT ME

- I am Ali Seyedi, a front-end developer with one year of experience.
- I am passionate about web and mobile development, and I am always looking to learn new things.
- So far, I have tried to improve my coding and programming skills by watching YouTube videos, reading documentation, articles, and books.
- I have also tried to get familiar with the concepts and challenges of the front-end world by creating practice projects, some of which you can see in the projects section.
- Currently, I am looking for new opportunities to gain more experience and face new challenges.

SKILL

LANGUAGE	DATABASE	COMPONENT	STYLE	Lib , Frm	Tools
 JavaScript	 Supabase	 Mui	 Css	 React	 Git
 TypeScript	 Firebase	 AntD	 Sass	 Redux	 GitHub
	 Shadcn		 Tailwind	 TanStack	 Postman
			 Bootstrap	 Next	 Figma

Portfolio

Personal Site

In this utilizes Next.js 13 App Router and incorporates Shadcn and Tailwind for a visually appealing design. It offers internationalization, dark mode, and responsive features for an enhanced user experience

 09-2023

Admin Panel

This admin panel, styled with Ant Design, manages members, products, and blogs, powered by Supabase for authentication and storage. Highcharts displays reports, while responsive design, dark mode, and lazy loading for images enhance the user experience.

 07-2023

ToDo List App

This task app combines a sleek design with Firebase authentication, task categorization, filtering, and alarms for important tasks. It's responsive and offers a dark mode for user convenience.

 04-2023

Music App

This music app categorizes songs by genre, enables cross-song searches, and provides info on top artists, lyrics, and related music. It supports responsive mode, dark mode, and lazy loading for a superior user experience.

 03-2023

Weather App

This weather app displays current conditions and a seven-day forecast, adapting its visual style to match the weather. It also shows a city photo and seamlessly switches between light and dark themes based on the time of day for a user-friendly experience.

 02-2023

Video Player

This user-friendly video player, built with JavaScript, enables screenshot previews on hover, screenshot capture, subtitles, variable video speeds, keyboard shortcuts, and supports responsive and dark mode options for an improved user experience.
